

Our Targets

Our target is to provide financial / material support to seriously ill children in Russian hospitals. That's why we are continuously searching for sponsors who would be willing to contribute towards the cost of medical treatment of these children.

Please Support Us

If you wish to make a donation, your money can be transferred to the bank account of the Foundation Save A Russian Child (Stichting Red een Russisch Kind, GIRO 696000, Amsterdam). Your gift can be partly returned by the Dutch Tax Office.

Each sum remitted to the foundation account is automatically shown in our on-line administration:

http://www.russischkind.nl/boekhoud_en.html

In this way you always have a current view of the funds we are receiving.

Donations can be addressed to a specific child or alternatively they can be transferred to a "common pot" (if you specify it as a "Description"). In this case the received amount will either be equally distributed among the children or it will be used for the child who is the most in need at that very moment.

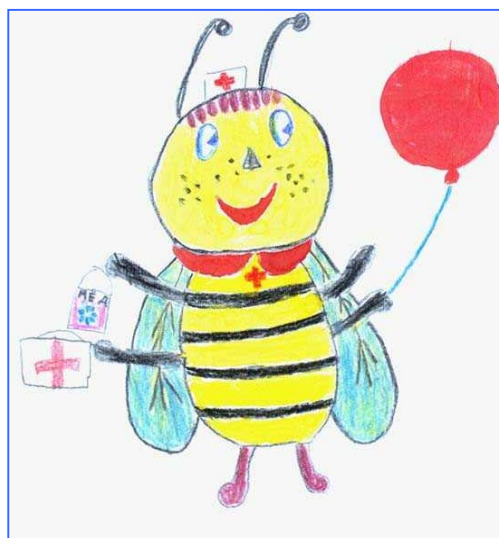

On request we can send a regular report (by e-mail) concerning the child's health condition / progress of treatment.

What can YOU do to help these children?

- BY MAKING A FINANCIAL DONATION YOU CAN CONTRIBUTE TOWARDS THE CHILDRENS MEDICATION OR TREATMENT
- WE ARE CONTINUOUSLY LOOKING FOR VOLUNTEERS WHO COULD HELP US IN DIFFERENT CAMPAIGNS
- DONATING OR ASSISTING US IN ACQUIRING SECOND HAND MEDICAL EQUIPMENT
- ADVICE IS ALWAYS WELCOME

www.RussischKind.nl

Dear Friends,

Here in the West we are fortunate to live a life of comfort with the knowledge that in the event of illness our Medical system assists us to recover.

However in other regions of the world many people are less fortunate than we are. In some instances they have no proper Medical insurance. As a result countless children are suffering and even dying from serious yet curable illnesses on a daily basis purely because their families do not have sufficient means to cover the expense of the Medical services required.

The State Healthcare system in Russia is in a continual state of crisis. Therefore it is often not in the position to provide the necessary help to many of it's patients, particularly children.

Their daily lives are subject to serious illness, pain and despair. If we do nothing the children who are in need of this costly treatment often will not get the opportunity to be treated.

It is almost unthinkable to know that many of these children could be cured but it is impossible because of shortage of money.

We are in a position to make a difference, to provide another quality of existence, to offer them the chance to live.

If each of us open our hearts and unite our efforts to improve the suffering of others then realistically we can potentially save many young lives.

Their health, future, lives are in our hands.

These children need urgent help:

Alexander,
*Myeloblastic
leukemia*

Dima
Neuroblastoma

Olga
*Lymphoblastic
leukemia*

Sergey
*Chronic
myeloblastic
leukemia*

HEAVENS TULIP, *Alexandra Romek, age 9*

The Foundation

Save A Russian Child was founded in 2001 by a group of enthusiasts on the basis to provide help to seriously ill children of the former Soviet Union.

With your help, friends, we have a chance to save the lives of many of these children.

If you would like to know more about our work you can always contact us.

Many thanks to all who have responded
